Clinical Research Site Overview

Independent outpatient clinical research in Hialeah, serving South Florida. Published scope: Phase II–IV; no Phase I studies or overnight stays. Discuss protocol-specific feasibility with our team.

INVESTIGATOR TEAM

Orlirio Corrales, MD — Principal Investigator

Natalia Escuti, MD — Sub-Investigator

Backgrounds include internal medicine, family medicine and clinical trial operations. Investigator experience is distinct from IHR's institutional track record. Confirm current credentials and protocol availability.

COMMUNITY & FACILITIES

English and Spanish communication; outreach planning through community relationships and collaborating physician referrals. Enrollment capacity is assessed for each protocol. [View actual facility photographs](#), confirmed by site management; photographs do not establish equipment qualification.

EQUIPMENT & PROTOCOL REQUIREMENTS

Reported storage includes -80°C and -40°C units; inventory, calibration, monitoring and backup arrangements require technical verification. The reported $+20^{\circ}\text{C}$ equipment or area and its intended use remain to be identified. It is not presented as a freezer or a qualified storage capability.

FROM FEASIBILITY TO ACTIVATION

Discuss study requirements, staffing, visits and an evidence-based enrollment forecast. Request current investigator and site records through controlled document access. F06 feasibility and F08 activation worksheets support review; draft forms do not establish approved SOPs or readiness. Resolve applicable approvals, agreements and protocol requirements before activation.

START THE CONVERSATION

[Request a feasibility discussion or site qualification visit](#). Share nonconfidential requirements first and agree a secure channel for confidential material. Do not send patient records. Response target: one business day, Monday–Friday.

Monday–Friday 11:00 a.m.–7:30 p.m. · Saturday 9:00 a.m.–noon · By appointment

No study award, active recruitment or regulatory certification is asserted here. Site scope was confirmed by management on October 10, 2026; credentials and study-specific readiness require verification.
