Experience that supports the next conversation

Study contracts & budgets	Protocol cost review and clinical trial budget and contract experience.
Regulatory operations & quality	Regulatory files, source documentation, staff training and quality assurance.
Site management & coordination	Experience in clinical research site management and study coordination.
Documented professional training	NIDA GCP certificate expires May 13, 2028. Additional training records are available.

A clear next step

Share a nonconfidential study synopsis. Review patient access, investigator availability and protocol requirements with the team. Coordinate a qualification visit and the documentation needed for evaluation.
